

Dear Patient,

We are pleased to introduce secure online services through our Patient Portal. These services will help us correspond securely, keep your information up to date, and are available 24/7 from the comfort of home.

Once you sign-up, you will be able to:

- Request to cancel or reschedule an appointment
- Complete paperwork and consents to bring to your appointment
- Access and update medical records.
- Lab results and imaging studies must be reviewed and signed by the physician before you can view them.
- Request Medication Renewals
- Send a Message to Your Doctor or doctor's representative (Non-urgent clinical questions)

To register, you will need a PIN provided to you. Your PIN will expire in 30 days. To request a PIN, please visit us in person. We do not provide this information over the phone to ensure your privacy and the security of your medical records.

We are excited about our Patient Portal and hope you will register. To connect with us online, follow these simple steps:
